

## GENERAL SERVICE RATE SCHEDULES

### AVAILABILITY

This schedule is available at points on the cooperative's interconnected system where existing facilities of adequate capacity and desired phase and voltage are on the premises to be served, and additional investment by the cooperative for new transmission, substation or terminal facilities is not necessary to supply the desired service. Service is subject to established policies and procedures of the cooperative.

### APPLICABLE

Service under this schedule is applicable for purposes which are general in nature and which are ineligible for service under any other rate schedule.

### TYPE OF SERVICE

Single-phase or three-phase, 60 cycle, alternating current at available secondary voltage measured through a single meter.

### DETERMINATION OF RATE SCHEDULE

Accounts will be reviewed to determine the appropriate rate schedule as deemed necessary by the cooperative.

### SERVICE AVAILABILITY CHARGE

The intent of the Service Availability Charge (SAC) is to recover the fixed costs of providing service to our members. These costs include the cost of infrastructure such as substations, poles, wires and transformers used to deliver power to the point of service and are incurred regardless of how much electricity is used. The actual fixed costs of providing service are established by a Cost of Service Analysis and SAC is set to recover all, or a portion of, that amount.

### POWER COST ADJUSTMENT

This rate shall be subject to the cooperative's Power Cost Adjustment Schedule.

### TAXES AND/OR FRANCHISE FEES

This rate shall be subject to all taxes and franchise fees levied or imposed by laws or ordinances which are incurred by the cooperative.

### TERMS OF BILLING AND PAYMENT

Payment for rendered service is payable by the stated due date and becomes past due if not paid by that date. For those rates having a minimum bill provision, the minimum bill rendered will be the greater of the sum of all applicable charges, or the minimum charge.

Payment for rendered service is payable by the stated due date and becomes past due if not paid by that date.

Members requesting a reconnection of service within 12 months of requesting a disconnection at the same service location shall be responsible for paying all applicable charges that would have been incurred during the months the service was disconnected. When determining applicable energy charges, no consumption will be assumed during the months the service was disconnected. These charges will be in addition to any other outstanding charges or fees.

**MONTHLY BILLING RATES**

<b>General Service Rate Schedule</b>	<b>G110</b>
Service Availability Charge:	\$36.20 per month, plus
Energy Charge:	All kWh at \$0.04800 per kWh

<b>Prepaid General Service Rate Schedule</b>	<b>G117</b>
Service Availability Charge:	\$33.20 per month, plus
Energy Charge:	All kWh at \$0.04800 per kWh

**These rates are effective for billings rendered subsequent to October 1, 2020.**
